

Success story

Retrieval of MDR Defaulter by Axshya Samvad

Name:- Mr.Mangilal Bheel (Mining worker)

Age:- 40 Year

Address:- Village Rajwa, TB Unit Banad, District Jodhpur

Status of Patients:- On treatment

DOTS Provider:- Mrs Sarshwati Bhati (SC – Rajwa)

Mr Mangilal had infected on Tuberculosis in 2011-12, he went to Govt. Hospital Fidusar after counseling a reputed person. After examination doctor started treatment, he taking treatment 4-5 month and away Gujarat state for labor work because his health status is not good and condition is not well for mining work, the mining owner fires him to work.

After 2-3 years later come Jodhpur and during Axshya Samvad the CVs of Mr Dhana Ram (Gravis) find out and provided counselling for treatment of Tuberculosis and collected their sputum for examination. After sputum examination find out MDR TB and transported their sputum for cultural test and advised to treatment. But Mr Mangilal not started treatment due to stigma of TB and there treatment.

Provided counselling by Axshya team, STS and PRI members and started MDR treatment successfully.
